PROFILE SUMMARY

B.Tech Information Technology graduate (85.5%) with hands-on experience in Python, Artificial Intelligence, Machine Learning, Data Science, SQL, and software application development. Experienced in developing AI-powered applications, machine-learning models, data-processing workflows, and analytical solutions using Python and Scikit-learn. Built an AI Job Agent using Python, FastAPI, REST APIs, LLM integration, and structured data processing. Strong problem-solving and analytical abilities with experience working on EV charging datasets, making a strong foundation for software and AI solutions in the automotive and mobility domain.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

AI & Machine Learning: Artificial Intelligence, Machine Learning, Generative AI, LLM Applications, AI Agents, Scikit-learn, Prompt Engineering

Data Science: Pandas, NumPy, Matplotlib, EDA, Data Preprocessing, Statistical Analysis, Data Cleaning, Data Validation

Backend & APIs: FastAPI, REST APIs, API Integration, JSON, Backend Services

Databases & Software Development: MySQL, SQLite, OOP, Data Structures & Algorithms, SDLC, Modular Architecture, Debugging, Problem Solving, Technical Documentation

Tools & Platforms: Git, GitHub, GitHub Actions, Streamlit, Playwright

Analytics & Visualization: Power BI, Tableau, Excel, DAX, Power Query

EXPERIENCE

Data Analyst Intern — AICTE & APSCHE *Oct 2025 – Mar 2026*

SmartInternz / SmartBridge

- Worked with 30,000+ EV charging records, performing data preprocessing, validation, schema profiling, missing-value treatment, duplicate resolution, and statistical analysis.
- Developed validation and reconciliation workflows that resolved 1,200+ data inconsistencies, achieving >95% verified data accuracy.
- Analyzed EV charging patterns and identified an approximately 18% decline in charging efficiency during peak utilization.
- Reduced manual reporting effort by 40% through structured Python/SQL analysis workflows.
- Built 3 interactive dashboards tracking 8+ KPIs, reducing stakeholder insight-extraction time by 60%.

PROJECTS

AI Job Agent

Python | FastAPI | REST APIs | LLM APIs | SQL | Git/GitHub

- Developed a modular AI-powered job application platform using Python and FastAPI.
- Built REST API endpoints for resume upload, file validation, resume analysis, ATS scoring, job search, and job matching.
- Integrated external AI services/APIs for LLM-powered analysis and recommendations.
- Implemented structured data processing and validation between application components.
- Applied modular backend architecture, API integration, debugging, and Git/GitHub version control.

Customer Churn Analysis & Prediction

Python | SQL | Scikit-learn | Power BI

- Developed a machine-learning solution using Random Forest on 6,418 customer records.
- Achieved 82% model accuracy using a hold-out test set.
- Performed data preprocessing and model evaluation; translated churn-driving factors into Power BI visual insights.

EV Charging & Range Analysis

Python | SQL | Tableau | Excel

- Analyzed 30,000+ EV charging records to identify charging behavior, efficiency, and utilization patterns.
- Performed EDA, data cleaning, validation, and statistical analysis using Python and SQL, identifying an approximately 18% reduction in charging efficiency during peak utilization.
- Developed interactive visualizations to communicate EV charging insights.

Hospital Emergency Room Analysis

Python | MySQL | SQL | Power BI

- Analyzed 9,200+ patient records to evaluate emergency-room operational performance.
- Developed SQL queries using joins, correlated subqueries, aggregate functions, and window functions.
- Identified waiting-time and department-level operational patterns through data analysis and visualization.

EDUCATION

B.Tech — Information Technology *2022 – 2026*

Sri Venkateswara College of Engineering, Tirupati | 85.5%

CERTIFICATIONS

- **Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)** – Microsoft
- **Oracle Cloud Database Services 2025 Certified Professional** – Oracle University
- **Oracle Analytics Cloud 2025 Certified Professional** – Oracle University
- **AI Data Quality Analyst Certification** – Rooman Technologies Pvt. Ltd.
